VOL. 14, NUMBER 63 — MONESSEN, PA, THURSDAY, AUGUST 26, 1915 — SIX CENTS THE WEEK

Revenge Was Sweet For Sunnyside Base Ball Team

In a game featured by many thrilling plays that would have done credit to a big league contest, the Sunnyside team of Donner avenue defeated the Shadyside team at Page grounds by a score of 9 ,to 8, thereby redeeming themselves for the defeat handed them several weeks ago by their opponents. During the early part of the game, the pitchers twirled airtight ball and the game stood tie at 1 to 1 when the Sunnyside came to back in the fifth, scoring two more runs. The Shadysides came back strong in their half and took the lead by scoring four runs.

When the Sunnyside team came to bat in their half of the eighth, the opponents had a lead of two runs, but the thought of another defeat, suddenly brought them to their senses, and with their bats working overtime they soon chased Manager Eddy from the mound, scoring three runs and sewing up the game.

Third baseman Moore was the individual star of the game and it was due to his superb playing that his team mates were able to register a victory. Derby twirled for the victors and in all but two innings he held his opponents, and with proper support would have scored a more decisive victory. Only one incident occurred to mar the game and this happened when Daly slid for home. Something tore and Tom was obliged to sit on the ground at home plate until an emergency call could be supplied from the laundry.

Manager Lebowitz is highly elated over his team's victory and is willing that the third and deciding game be played to determine just who have a claim to the championship of the city. Following is the score by innings:

Sunny.	0	1	0	0	2	1	2	3	0—	9	13	4
Shady.	0	0	1	0	4	0	3	0	0—	8	11	3

Special Train

For the purpose of enabling people of the Monongahela valley district to reach the Fayette county fair by the most direct means, arrangements have been made with the Pittsburgh & Lake Erie railroad for the establishment of passenger service over the Wilmerding cutoff from September 14 to 17. Although the cutoff is being used for freight service, no passenger trains are run.

On the days of the fair the Pittsburgh & Lake Erie will run a special train leaving Fayette City at 9 a. m. It wil make stops at Star Junction at 9:25 and Perryopolis at 9:30 a. m., reaching Dickerson Run at 10 o'clock. Returning, trains will leave Dickerson Run at 6:50 p. m., arriving at Fayette City at 7:45.

This action on the part of the Pittsburg & Lake Erie, in addition to arrangements which have been made by the Baltimore & Ohio and the West Penn, assures splendid transportation facilities for fair week at Dawson.

Woodward's June Bug Will Race

No one can further doubt that there will be something doing at the two-day auto races to be held Friday and Saturday of this week when it is announced that Guy Woodward will enter his June Bug Ford with the intention of cleaning up A. D. Spencer in his Wildcat Buick. Ever since the series of races run over the same course a year ago by these same two, the question of the winner has bene a disputed subject. The races Friday and Saturday will undoubtedly settle the matter for once and all as this time the cars will be lined up at the scratch and started together instead of each runinng against time.

Two more cars are likely to enter besides the June Bug and the six others already on the card, bringing the total up to nine. This will be the first time in the history of the course that drivers of national fame have entered. Fetterman, Gardner and Johnson are known all over the country for their exploits at the wheel. Feterman has participated in many of the classics as he has also Gardner. Johnson sprang into the limelight when he defeated Ralph DePalma in the 1915 Uniontown Hill Climb. Since then he has taken to the oval course and has been achieving some spectacular results.

Aged Resident Was Called By Death

John Lee, aged 84 years, died last night at the home of his daughter, Mrs. Elizabeth Gibson of McKee avenue. The deceased had been ill for the past eight weeks, death being due to the infirmities of old age. Mr. Lee is one of the oldest residents of this city, and has made his home with his daughter here for the past twelve years. He is survived by one son, John Lee of Roscoe, and five daughters, Mrs. Elizabeth Gibson of this city, Mrs. Lowden of England, Mrs. Forest of Homestead, Mrs. H. G. Warrick of this city, and Mrs. William Jones of Roscoe. The funeral services will be held Saturday afternoon from the residence of Mrs. Gibson and interment will be made in the Mt. Tabor cemetery at Roscoe.

Twentieth Anniversary

Mr. and Mrs. Charles Snyder of Dutchtown celebrated their twentieth wedding anniversary yesterday with about thirty friends and relatives who gathered at the home. A big dinner was served and the happy couple received the congratulations of their many friends. Mr. Snyder and family moved to this city about two years ago and at the present time he is employed at telegraph operator for the P. & L. E. railroad at Fayette City. He is known all along the line not only as a competent worker, but also as a really good fellow and he always points with pride to his loving wife and seven children.

Fall Term Will Open September 6

Less than two weeks remain until the fall term of the local public schools begins and with the announcement appearing in this issue of the Independent for the enrollment of beginners, the scholars and teachers are brought to the realization that the summer vacation is fast nearing the end. Enrollment Officer Sistek has at the present time the names of 3100 pupils for the opening day, and it is fully expected that the total enrollment for the term will reach the 3300 mark.

The new High school building will be in use in every department and with the new Ninth street school building, eighty-two rooms will be available for this term with as many teachers employed. The school board will meet Tuesday evening of next week to fill any vacancies that may exist in the teaching corps and to arrange any other details for the opening.

Pupils entering school this coming term for the first time will be enrolled on Thursday, Sept. 2 in the morning at the superintendent's office in the Jefferson building. No beginners will be admitted after the first two weeks of school, and vaccination certificates must be presented at the time of enrollment.

Three rooms have been set aside for the domestic science department in the new High school building with all the latest and most modern equipment. Manual training will also be carried on more extensively this year. An electric program clock has been installed in the High school building with 26 secondary clocks in the class rooms, controlled by a master clock in the office of the superintendent. This system needs no attention and automatically rings at the close of class periods.

Former Resident Relates Experience During Flood

The following letter was received this week by Mrs. Louisa Jones, mother of Mrs. W. E. Price, in which she relates her experiences during the recent Galveston flood. Hundreds of lives were lost and millions of dollars' damage accomplished by this great disaster which swept the southern states. Mr. Price, formerly an employe of the Pittsburgh Steel, has been in Galveston for some time in the warehouse of that company.

Galveston, Aug. 20, 1915.

Dear Mother:—

We are all safe, but were it not for the sea wall, the entire town would have been demolished and thousands, if not all the population destroyed About 10 o'clock Sunday night, Aug. 15, we received warning to seek places of safety. I took my family in the Trust building where my office was. We stayed there all night and the wind blew at the rate of 56 miles per hour and gradually increased as the barometer went down.

We went home Monday morning, but returned to the Trust building about 2 o'clock Monday afternoon. It had been raining all day Monday and about 8 o'clock that night, as the wind increased in velocity, the rain came down in torrents. The lights went out all over town early in the evening and the only time anything could be seen was when the lightening flashed.

As we stood in the Trust building we could hear the windows break all about us and most of the children and women were crying and praying. Early in the evening the water raised in the streets as the gulf and bay met, to a heighth of eight feet. At the same time a big laundry about two blocks away from us took fire and burned to the ground in about thirty minutes, such was the velocity of the wind which attained a maximum of 120 minutes per hour for half minue and 110 miles for 10 minutes, varying between 93 and 120 miles per hour for over two hours.

Three bath housese were blown down and hundreds of residences. The water undermined several other places and cut trenches in some of the streets ten feet deep, and a number of houses toppled over from that cause. Our house has the roof blown off and everything inside was drenched. Food and water is scarce and unless a supply is soon received, conditions will get worse, as a number of people are now demanding that they be fed.

The damage will probably amount to $10,000,000 although the estimates of others are considerably lower. A three masted schooner was blown clean over to the sea wall. The captain was lasted to the wheel and the crew was lashed to the mast. A government dredge was sunk and about 70 men lost their lives. The soldiers at Ft. Crockett had to stand up for

Companionship.

Much has been written on the subjects of truth, love and duty; suggestions to mothers, methods of housekeeping and home making, and many other subjects, helpful inspiring, all of them; but it is the great hero of every-day life --the provider of the home, the protector of the fireside—the husband and father, we wish to say a word of praise and for his benefit offer a few suggestions to the wife. With what unselfish devotion he labors to secure for you the comforts, luxuries and pleasures of life!

Whether it is in the shop, behind the counter, in the office, or on the farm, it is with one purpose in view—he works and strives and slaves, patiently, year in, year out, for the comfort and happiness of those he loves—wife and children. The man who, for their sakes, faces a combinatron of discouraging circumstances, distressing financial difficulties, numberless failures, and keeps steadfastly at his post, defying them all, is a hero, and nothing less. We meet them every day. Such they are, and doubtless will continue to be as long as there is a home worthy of protection, a child worthy of care, and a woman worthy of love.

And now, little woman, a word with you. If some manly man has chosen you to reign queen in his heart and home, know that in that capacity you fill the most sacred, the most honorable position in which woman can aspire. In it you appear in your most sacred and dignified character. "To be able to reinforce your husband in the work of life," and rear your children for positions of usefulness is a work worthy of your most careful and prayerful consideration.

There are many ways in which you can lighten his labor and strengthen his hands and gladden his heart (for this purpose were you created the "helpmeet." the comforting ministering guardian angel of man), but in no way more effectively than by studying to make yourself the intelligent, interested sympathetic companion of your husband. The power and influence of the wife in beautifying and blessing or blighting and cursing the life and prospects of the husband can hardly be estimated. One thing is certain: No man succeeds so well in life as he who has in life's partner a sharer in all his purposes and hopes, a counsellor in every difficulty, a sympathizer in every sorrow. Then see that nothing prevents you giving him your sweetest smiles, your kindest words. They are worth more to him—he cares more for them—than all the gold he earns.

Arrange your household affairs so that you can spend the evenings in pleasant companionship with him, you will be amply compensated for any sacrifice you may have to make. We believe with all our heart that a proper understanding of the term companionship as applied to the wedded state would have saved many a home from ruin and kept the pure and holy flame of love from dying out in many a heart and besides many hearthstones. Again we charge you, be your husband's companion.

DOING THEIR DUTY

Scores of Monessen Readers are Learning the Duty of the Kidneys

To filter the blood is the kidney's duty.

When they fail to do this, the kidneys are weak.

Backache and other kidney ills may follow.

Help the kidneys do their work.

Use Doan's Kidney Pills—the tested kidney remedy.

Monessen people endorse their worth.

Mrs. J. F. Leonard, 7 McKee avenue, Monessen, says: "I was bothered by a dull, heavy pain in my back for several years. While doing my housework, my back throbbed just like a toothache. If I stooped over, the pain caught me and I could hardly straighten. I often got so dizzy that I had to sit down. My head ached and my eyes were affected. I felt tired and languid all the time. I tried everything but didn't improve until I got Doan's Kidney Pills at the Hirsch Drug Co. The second box drove away the trouble. Occasionally I take a few doses of Doan's Kidney Pills when I work hard or catch cold. They never fail to help me."

the entire night on the barracks as there was not room for all of them to get in.

Walter (Mr. Price's brother) was on the U. S. Transport McClelland which broke away from its moorings and was blown half way across the bay to Pelican Spit where it went over on its side. Walter and the others on it, got back on a launch safely.

Martial law has been declared as the soldiers are policing the city. Part of the causeway is down and trains will not be able to come into the city for sime time. About two dozen men, women and children were in the bridge tenders house for three days without food or water. An interurban car was stranded on the causeway and the passengers had to feel their way along the railway tracks to a hotel at Virginia Point which was later blown down and about twelve of them lost their lives. We are not in communication with the outside world except by San Antonio.

Conditions could not be described accurately by the wildest writer of fiction. I sent a telegram to you Tuesday morning by a man going to Huston, but as the wires are down to Carsicana, it may not have been sent by him and will file another now. I will close this now so as to get it off on the next boat to Texas City.

Officials After New Beverage

A new mixture or brew, placed on the market some time ago and being sold in some of the smaller stores throughout the country, is causing considerable unrest in the office of the district atotrney. One of the liquids, much resembling beer in appearance, and enclosed in a bottle about the size and shape of a beer container is labeled "Tis." It is also sold as "Near Beer," and other peculiar names. The first discovery of the "stuff" was made at Bolivar, when a few days ago several of the citizens of the little borough were arrested charged with selling liquor illegally. A sample bottle of the brew was brought to the office of the commonwealth's attorney, and on Tuesday morning Mr. Fleher began searching for an expert chemist whom he expected would make an analysis of the contents of the bottle in search of alcohol.

It is confidently expected by the district attorney and certain citizens of Bolivar that the liquid that has been industriously sold not only in Bolivar but in many towns, will be found to contain a certain percentage of alcohol. It is claimed by Bolivar people that they have evidence that people who used the stuff rather freely became intoxicated.

It is said the alleged "booze" is manufactured by a brewing company of god standing, and is being sold by the hundreds of cases all over western Pennsylvania. The stuff found at Bolivar is said to have been made at Baltimore, Md. It has found ready sale wherever offered as a "soft drink."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

If Caesar Had a Phone.

Julius Caesar missed a great deal in not knowing the telephone or at least in not using it if he knew it. One can see the telephone engineer attached to the Roman postoffice endeavoring, but without avail, to get an instrument installed at the capitol and at the palace. "I am intrusted by the emperor to say that he does not desire these barbarian novelties, and so Thomas Alva Edisonus need not call again with his magician's apparatus." A signal blunder! We can imagine what would have happened. "Hello, 1287 Tiber! Is it thou, Artemidorus? I understand thou rangst me up this morning. What! Details of a plot? Go not to the senate today? Beware of Brutus? Go not near Casca? Right, and I thank thee, Artemidorus. I will have an extra guard put on instantly and the conspirators arrested." And so, although Artemidorus was unable to give his warning in the street, he gave it over the telephone, and Caesar's valuable life and with it the fortune of Rome was saved.—From "If They Had Thought of It" in Strand Magazine.

Too Much to Bear.

Friend—Why are you crying, Bobby? Bobby—Ma whipped me because my face was dirty and then washed it.—Judge.

By the street of By and by we arrive at the house of Never—Cervantes.
